### WASHINGTON DISPATCHES

SHERIDAN DISCUSSED AS A PRESIDEN-TIAL POSSIBILITY.

General Vilas and Several Other Demoeratic Officials Who are Auxious to Be Nominated With Cleveland-Leprosy in South America-National News.

WASHINGTON, Aug. 2.—The recent occasional reference to Gen. Sheridan as a presidential candidate is giving friends of both Mr. Blaine and Mr. Sherman some uneasiness. I was talking with a strong Sherman man a little while ago. He was delighted with the unanimous indorsement of Sherman by the Ohio convention.

"But," he said, "how about this Sheridan boom? I am a little suspicious of that."
"Why so?" I asked. "Do you consider

him a dangerous man for your candidate?" "I do consider him a very strong man," he answered frankly; "so strong that he might be taken up with great propriety, if the fight between Sherman and Blaine gets too hot to be comfortable for the prospects of the party."

"What sort of a race do you think he would make?"

"A very good one. Indeed, I don't see how he could possibly be beaten. There is nothing to be said against him, and he has the personal qualities that would make him

exceedingly popular."

"What are those particular qualities, and what class of voters would they affect?"

"Well, his soldier record would, of course,

give him the full soldier vote, which was a great deal divided in the last campaign. Then he would, of course, draw more of the Irish vote than, perhaps, any other man that could be selected. Then, too, he would get a greater percentage of the Catholic vote, regardless of nationality, than any other man thus far mentioned. I regard Sheridan as a strong man. I don't believe it would be possible for Cleveland to beat him. Of course, I am a Sherman man, but in case we can't get the party to unite on him, I think Sheridan would be an available candidate."

"There is more vice presidential timber around Washington about this time than I have ever seen in one small town. There is Gen. Vilas, who is working every point for all it is worth. Then there is Stevenson, his first assistant, who is ditto; Sparks, who thinks he is the only available man for the second place on the ticket; and Gen. Black, who is working quite as hard to make a record for himself in regard to pensions as to make a record for the department or for the president. Mr. Black thinks he is just the man to take that position along with Cleveland."

"Do they all admit that Cleveland is going to be nominated for the first place on

the ticket?" "Oh, that seems to be a foregone conclusion. Nobody denies and very few seem

to have any doubt about it." Leprosy in South Africa.

WASHINGTON, Aug. 2-In a report of the state department just issued, concerning leprosy in south Africa, many interesting and important facts are given. It is thought that the disease first appeared in Africa when the Dutch inhabitants of Cape Colony introduced a large number of Malay slaves from the Malay archipeligo and the adjacent islands. The descendants of these Malay slaves are the most liable to attack by it, and it is much more prevalent among them. But the disease is spreading lately, especially among the European inhabitants, and the colonial government has been aroused to action. A large asylum is being built to accommodate the afflicted applicants for ad-

The cause of leprosy is not known, but it is known and has been fully established that it is hereditary and contagious, and therefore dangerous if once let into a community, for the disease is incurable and those afflicted with it never recover. But a healthy person, if he does not place himself in reckless contact with lepers, is hardly ever known to catch the disease. It is a curious fact that animals of all kinds are afflicted with this disease and catch it from human beings; and if a diseased animal is eaten it is almost certain to impart the germs of the malady to him. The report that leprosy has been discovered on the western coast, makes the subject one of special interest to

They Preparing for Another Raid in Hardin County.

CHICAGO, Aug. 2.—A Times special from Harrisburg, Ill., says: Persons who have just returned from the interior of Hardin county, report that the Ku-Klux gang are preparing for another onslaught on the good people of that section. Since the James Belt assassination of last week, County Judge Jacob Hess, Logan Belt's wife and a number of others have received written notices to leave the country. The people throughout the county are terrifled, and many are leaving without receiving the invitation extended to so many. The gang is beginning to warn people of other counties to get out of Southern Illinois.

Among these are friends of the late Logan and James Belt, who lived in the neighboring county of Gallatin. Not less than eight others who have received these notices have been waylaid and killed. A meeting of the citizens of the county is called for August 6, to devise means to ferret out the murderous mysteries. The gang is somewhat on the order of the Bald Knobbers, and are getting bolder with each successive crime. Earl Sherwood, one of the persons warned to leave Elizabethtown, has taken up his residence here for fear his life will be taken.

A Real Prince Arrives.

M'COY FOUND GUILTY OF MURDER.

The Jury Reached a Verdict After Being Out Over Sixty Hours.

PORTSMOUTH, O., Aug. 2.—The jury in the McCoy case returned a verdict of not guilty of murder in the first degree, as charged in the indictment, but guilty of murder in the second degree. This means life imprisonment for Alf. McCoy. The jury had been locked up since 5 o'clock Friday afternoon, unable to reach an agreement. Last night they sent for Judge Dever and asked for new instructions, which were refused and the jury were locked in their room again. The verdict was given by Foreman A. K. Fenton at 10 o'clock and the

jury discharged.
At 9:30 Alf McCoy, the prisoner, was brought into the court room. He had lost his swaggering air and self-confident ways that so disgusted everybody during his trial, and had the appearance of a man who feared the worst and had spent a sleepless night. The prisoner was neatly dressed in a Grand Army suit, clean linen, and was newly shaved. All his relatives were present, Robert, a brother, was so weak from excitement that he supported himself on his feet in the door frame leading to the antercom. After the verdict congratulations were pressed on Alf by his friends, and his counsel filed a motion for a new trial. The verdict causes some dissatisfaction, and it is even reported all was not fair. But this is hardly probable, as Sheriff Yeager kept the jury too closely under guard to allow of their having been bribed.

The murder of Dr. Northup at Haverhill, a few miles from Portsmouth, occurred in May. How Alfred McCoy, the postmaster of Haverhill, who also kept a saloon, and his brother James, aided by James' son Pierson, scores of witnesses and deliberately shot him to pieces is still fresh in the minds of the reading public. Dr. Northup was a Prohibitionist, who had labored zealously to close the McCoy saloon, the only one in the village. His efforts resulted in the feud that ended in the doctor's murder by the McCoys. James and Pierson McCoy are now awaiting trial for complicity in the murder. Pierson's trial begins August 9. Alfred McCoy's trial lasted three weeks.

Mother Arrested for Poisoning Her Child. ZANESVILLE, O., Aug. 2.-Mrs. Anna Snoots, wife of a well known resident of Adamsville, this county, was arrested last night and lodged in jail, charged with poisoning her six-year-old daughter, Carrie, who died very suddenly on the 5th inst. Suspicion being aroused, the remains were quietly taken up and sent to the eminent analytical chemist, Professor Curtis C. Howard, of Columbus, O., who telegraphed Coroner Ruth that he had detected in the stomach paris green in sufficiently large quantities to have caused death. A horrible suspicion prevails in the neighborhood of Adamsville that this is not Mrs. Snoots' first crime, inasmuch as two other children had died some time ago in the same sudden way, with all the symptoms of poisoning. The motive for these crimes and all the evidence will probably be made \$20,000. plain to-day at the preliminary trial.

### Oil Well Statement.

BRADFORD, Pa., Aug. 2.-In the New York and Pennsylvania oil fields 158 wells were completed in July, with a new production of 1,827 barrels. The dry holes numbered thirty-three. Compared with June, there is a decrease of twenty-one wells and of 4,553 barrels new production. At the close of July the record shows six new rigs, one hundred and seven old rigs and one hundred and forty-two drilling wells. This represents a decrease of twelve in the old and new rigs and an increase of four drilling wells, or a net decrease of eight from the figures of June 30. No wells of the gusher stripe were discovered in July and the decrease in new production is the marked feature of the report.

The Lily and Freddie.

CHICAGO, Aug. 2.—The Times this morning says: Mrs. Langry arrived in Chicago yesterday on a special train from San Francisco, accompanied by Freddie Gebhardt, and left for the east at 4 o'clock in the afternoon. Mrs. Langtry was apparently in good health, and Mr. Gebhard was, as usual, as attentive and solicitous as a valet. Mrs. Langtry signed her name in person on the register at the hotel Richeliu, but Freddie modestly declined to leave his autograph for the curious inspection of the crowd.

### M'GARIGLE HEARD FROM

HE ARRIVES IN CANADA AND IS INTER-VIEWED.

He Says He Will Be Back In Chicago in Less Than Three Months and His Innocence Proven-His Arrest Ordered From Chicago-Dr. St. John Arrested.

SARNIA, Ont., Aug. 2.-Late last night the authorities here received orders from Chicago to arrest Boodler McGarigle, but up to this morning they have been unable to find him. McGarigle arrived here early yesterday morning on the schooner Blake. In an interview McGarigle said: "I will be back in Chicago in less than three months and when I come I will not be hounded as a rascally thief. This investigation that is now being held will develop my innocence of any corrupt act and will convince the people of Chicago that in spite of all the squealing that is made in court I am not implicated in any crooked transactions." The ex-warden declared that in his transactions with the county board and the men who sold goods to the county he acted simply as an agent, and he was compelled to do that or beforced out of his position. Not one cent of the money stuck to his fingers. He never dreamed of any such rascality as has been developed, and assured the reporter that it was as much of a revelation to him as it was to any one else in Chicago. McGarigle repudiated the idea that Sheriff Matson was a brother James, aided by James' son Pierson, took advantage of a petty quarrel over guinea fowls to assault the doctor in the street in broad daylight and in plain view of depended on his keeping out of prison.

Capt. Freer, of the schooner Marsh, which was in the same tow with the Blake, says that when the detectives on the tug boarded his vessel and inquired for McGarigle he invited the entire crowd into the cabin and opened a bottle of his choicest cherry brandy. When they came on deck not one of them could have told a fishing smack from a steamboat. When the Blake stove in the starboard quarter of the Marsh, Mc-Garigle with tears in his eyes jumped aboard and begged Capt. Freer to put him ashore, which the latter did. The captain says he can hardly see how he is in any way liable, as when McGarigle got aboard of the Marsh she was on Michigan waters, and beyond the jurisdiction of the Illinois

Deputy Sheriff Graves was given a warrant charging Dill, the clerk, with the same offense, and left for that gentleman's residence. Dr. St. John's bail was fixed at

### LIGHTNING'S WORK

A Number of Buildings Destroyed and

Other Great Damage Done by Storms. LANCASTER, Aug. 2.—The barn of Elias Reist, in Penn township, was struck by lightning during a heavy storm last night and burned with a large amount of crops and several animals. Loss, \$5,000; insured. Mrs. Abram Witner, of Safe Harbor, while looking at the fire, dropped dead from excitement. The Port Deposit railroad bridge at Octorara was washed away. Henry Hallers' barn at Rothville was also struck by lightning and burned.

Barn Burned and Church Injured. WATERBURY, Conn., Aug. 2.—During a severe thunder storm at Terryville yesterday afternoon lightning struck the barn of James Freston, burning it to the ground. ### LABOR TROUBLES.

No Settlement Expected of the Differences Among Iron Men-Elsewhere.

PITTSBURG, Aug.2,—No early settlement is expected of the differences between the Amalgamated Association of Iron and Steel workers and the iron manufacturers in reference to the "two job" system, the aboli-tion of which has been demanded by the officials of the Amalgamated association. The manufacturers, while conceding that the system is detrimental to the interests of labor, asserted that the matter should have been brought up in conference, and declare their intention of a stubborn fight.

Reports received at Amalgamation association headquarters to-day state that the operatives at the iron mills in the following places are now on a strike; Akron, O.; Girard, Pa.; Hubbard, O.; Youngstown, O.; Painter & Sons and William Clark's Sons, Pittsburg. Between seven and eight thousand men are idle in conse quence.

### Freight Handlers Strike.

ERIE, Pa., Aug. 2.—The situation at the docks is unchanged. There are about four hundred handlers and others in the strike. The China came from Duluth with a large number of Poles from a western railroad, but it was learned that they were en route to Buffalo to work. Great excitement prevailed, and threats were made against the Poles. The China and other Acchor line boats are unable to get coal here. The Anchor Line company has ordered all consignments to this point taken to Buffalo. The company shows no sign of yielding, and the strikers are firm.

Gloomy Outlook in the Hocking.

NELSONVILLE, O., Aug. 2.—At the miners' massmeeting Saturday night it was decided to discontinue work until advised by the state central committee what to do about the new change to a monthly pay, thus not recognizing the advice of John McBride and the Columbus board of arbitrators. A small number of men resumed work this morning and others are holding mass meetings at Straitsville, Buchtel and various other places in the valley. The situation looks gloomy.

### Raiding Celestials.

BIG SPRINGS, Tex., Aug. 2.- News has reached here of a series of depredations committed early yesterday on several parties of Chinese laborers at work on the Texas Pacific railway. About midnight five mounted men rode into Odessa, sixty miles from here, broke into a house occupied by some Chinese section hands and robbed the inmates. The marauders then rode to Warfield, ten miles away, and robbed another gang, securing \$130 and some clothing. From there they went to Midland and again raided a party of celestials and making off with \$350. The Chinamen were horribly abused, one being hung up by the neck until nearly dead, another badly beaten over the head with a six-shooter, and a third nearly killed in various ways. The Chinamen were at last so completely terrorized they gave up everything they possessed. After committing this last outrage the fiends left. Armed parties have been in pursuit during the entire day but nothing has been heard from the robbers. A similar outrage was committed at Moria station. several months ago. The perpetrators used the same brutal means to gain their end, some Chinamen being held on red-hot stoves.

### Fought Sixty-Six Rounds.

PROVIDENCE, R. I., Aug. 2.—The long talked of prize fight between Bobby Burns and Alfred Janson, both of this city, took place this morning at a well-known resort in Warwick. The men fought with skin tight gloves and to a finish. The match was for \$200 a side and the state light-weight championship. Sixty-six rounds were fought in a little over four hours. Burns was fearfully punished about the face, which was all puffed up. Janson was also badly beaten about the face and body. The fight

was finally declared a draw.

Fatal Quarrel Among Farmers. EVANSVILLE, Ind., Aug. 2.-Late last night James Moore and Lewis Wolf, two farmers residing in Scott township, became involved in a quarrel at John Koersiller's saloon, six miles below here, and came to blows. Wolf was getting worsted when he drew a knife and slashed open Moor's left cheek and arm. Koersiller then took a hand, and knocked Moore down with a beer mallet, crushing his skull. The victim was brought to the city at midnight, and is now unconscious. His marderers have not been

CHICAGO, Aug. 2.—This morning the dead body of a pretty white girl, about sixteen years of age, was found under the east end of the Eighteenth street viaduct. A New York Failure.

### TUESDAY EVE., AUGUST 2. 1887.

THE election yesterday was one of the quietest in this city and county for years. There was no hustling done on either side, and but little attempt was made to get out the full vote. The Democrats seemed to have faith in an old-time majority for the State ticket, and the local fight for Representative didn't prove warm enough to stir the workers up. The Republicans, however, did some better, and came nearer polling their full strength.

Unofficial returns from this county show that the Democratic majority on the State ticket is about what has been claimed all along - about 350. Gooding, for Representative, runs ahead of the State ticket, and his majority will reach, probably, 500. The Prohibition ticket, Republican candidate for Representative. probably die from its injuries.

Only partial returns have been received, and they are unofficial. They are as follows:

ROBERTSON COUNTY.

The Democratic majority is estimated at the following: Buckner, 200; Reynolds, (Senator) 150; Kenton, Representative, 375 or 400.

BRACKEN COUNTY.

The contest for Representative was a warm one. Reports indicate the election of Joseph Walton, the Democratic nominee, by 350 majority.

FLEMING COUNTY.

In Fleming the fight for Representative narrowed down to "whisky or no whisky." Hudson, Republican, was supported by temperance people of all parties, and defeats Hord, Democratic nominee, by 650 majority.

LEWIS COUNTY.

The Republicans, of course, carried Lewis. The majority for Hillis, for Representative, is estimated at from 300 to 500. At Tollesboro the vote for Representative stood Hillis (Republican) 146; Showen, (Democrat) 146; Rummans, (Prohibitionists) 14.

### Tobacco Corners Itself.

One of the prominent warehousemen of Cincinnati in a recent interview on the tobacco boom is represented as saying: "Nobody has made a corner on tobacco. It has cornered itself. Keith, I think it will go higher. That which I held has already advanced to 16 and 20 cents, yet I am selling very little. It will be a year and a half before the next crop can be figured on. The crop this year is a fortune. The prices lately have been so low that farmers have not planted; in fact, there is no money for them at 4 and 5 cents. The Tobacco Fair comes off in September, and then I predict you will see prices higher than they ever were before in this county. Why, take even the coarsest tobacco that goes to Germany, from Augusta and one from Newport are coarsest tobacco that goes to Germany, even that has more than doubled. There are two firms, Lorillard, who last year used 28,000,000 pounds, and Liggett & Myers, 17,000,000, and that's about all the Kentucky crop."

GENERAL BOULANGER AND M. FERRY TO FIGHT A DUEL.

Pistols Are the Weapons Selected By M. Ferry-The Affair Creating a Sensation in Paris-Gladstone's Activity-Grison's Statement Modified-Notes

PARIS, Aug. 2.—The Figare says that M. Ferry consented to receive Gen. de Kerbranch and Count de Dion, Gen. Boulanger's friends, at St. Die yesterday. They held two long conferences. M. Ferry doesn't refuse to fight in principle, but after a detailed explanation, referred the two gen-temen to his friends, Cassimor Perrier and Raynal at Paris. Gen. Boulanger's friends left St. Die last night for Clermont. M. Ferry remains at St. Die until the meeting. The Figaro thinks that the matter will be settled amicably.

Deputy Laur, who is one of the editors of La France, in an interview said: "The duel is an assured fact. Gen. Boulanger will not accept the flimsy explanations of M. Ferry who makes light of the epithet 'St. Arnaud de Cafe' saying that no insult was intended." M. Delafosse denies the truth of Deputy Laur's accusation to the effect that he, Delafosse, made overtures to Gen. Boulanger to head a coup d' etat in favor of the restoration of the monarchy. M. Delafosse has challenged M. Laur to fight a duel.

It is understood that the Boulanger-Ferry duel will take place with pistols. M. Ferry has the choice of weapons. The affair is viewed in a very serious light by Gen. Boulanger's partisans.

Gen. Boulanger has telegraphed his seconds to insist upon an immediate apology from M. Ferry or a duel.

The Grand Old Man.

LONDON, Aug. 2.-Mr. Gladstone continues to display great vigor. He makes speeches daily. He seems to be inspired with the belief that the Liberals are surely going to return to power within the coming year. There has been only one election this week. This was the election of M. T. C. Bearing, a Conservative, from a strong Conservative district in the city. There was no opposi-

Mr. Gladstone finds after a careful analysis of all the election returns from Bye elections held this year that the gain has been largely in excess of 11 per cent. In support of the strength of the Liberal party he says that the Liberals at the last general election cast 1,304,000 votes against 1,420,000 when they were united with the Liberal-Unionists. This difference of 11,000 votes, he thinks, will be more than made up by gains due to the dissatisfaction caused by the present ministers.

The new presentation of the cast is to show that the present ministry has no greater basis of security than the very narrow one of 150,000 odd votes. The concessions which the ministry has been obliged to make to carry threw their land bill have caused great dissatisfaction and apathy among their Tory supporters. Complaints are heard everywhere of lack of organization among the Conservatives, whereas the Liberals are active, energetic and disciplined.

### Grison's Statement Modified.

Paris, Aug. 2.—The sixteen Parisian journalists who were accused by M. Georges Grison in Thursday's Figaro of having concocted a plan to blackmail certain ladies of rank by threatening to make public some damaging revelations contained in the Pranzini testimony remain a mystery. CINCINNATI, Aug. 2.—The Evening Post special from Lexington says: The Post correspondent has just had an interview with a railroad man who came down on an accommodation train from Morehead this morning. He says the last of the women and children left town last night on a freight, and that there is now no one in Morehead save those who intend to engage in the fight if one takes place.

If any attack is made on the Logan guard it will be made before the arrival of the troops which were sent here with Winchesters in the hands of the attacking party. The Loganites would have little show of holding out against them for any considerable time.

By reason of the heavy brush around Morehead, the Tolliverites could approach within easy range of every house in the town without being seen by the guard.
